---

Mr. Wehrly and Mr. Orehowsky,

Attached is the paper that Ford will be discussing tomorrow at our 1pm meeting. This paper details 2012MY certification plans with respect to Ford's diesel SCR/DEF system and associated inducement actions for low level, poor quality, tampering, freezing, etc.

If you don't mind, please confirm that this has been received and forward to any other attendees from the EPA HD or LD side. Thank you.
